

### **DETAILED ACTION**

Claim 1-10 remain pending. Applicant amended claims 1-3, 6-8 and 10.

The claim objection cited in the previous office action has been withdrawn in light of the amendments.

The claim rejections under 35 U.S.C. section 112 cited in the previous Office action have been withdrawn in light of the amendments.

The amended drawing sheet filed by Applicant to correct a mislabeled drawing has been acknowledged.

### ***Allowable Subject Matter***

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

Porter et al. (US 5,709,838) disclose a kit for analyzing an unknown sample. The kit comprises a flexible tube, a reagent-filled ampoule disposed inside the tube, a test strip for introducing a sample into the tube, and a clamp for sealing the tube. The test strip comprises a generally rectangular base layer, an adhesive layer overlying the base layer, and a peel-able layer overlying the adhesive layer. In use, the peel-able layer is removed from the test strip to expose the adhesive layer, a sample is picked up using the adhesive layer, the test strip is introduced into the flexible tube, the flexible tube is sealed using the clamp, and the ampoule is crushed to enable the sample and the reagent to react. However, the kit disclosed by Porter et al. is not capable of being folded. Moreover, Porter et al. do not disclose a U-shaped clip having spaced resilient legs or an opaque surface for enhancing the visual detection of the reaction of interest.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
